Conclusion

- The dashboard analyzes Adventure Works' business performance using data from 2010 to 2014.
- Total Sales reached 29.36M with a Total Profit of 12.08M, resulting in a strong profit margin of 41.15%.
- The year 2012 recorded the highest sales and profit, making it the best-performing year.
- Quarter 4 (Q4) contributed the highest share of sales, indicating strong year-end demand.
- December emerged as the top-performing month, while early months showed comparatively lower sales.
- Accessories and Bikes are the most significant contributors to total sales and orders.
- A small group of top products generates a major portion of revenue, highlighting key focus areas.
- The United States and Australia are the strongest markets in terms of sales and orders.
- Sales and orders are almost evenly distributed between male and female customers.
- Most orders are placed on weekdays, with lower activity observed on weekends.
- Customers show repeat purchasing behavior, indicating good customer retention.
- Overall, the dashboard provides clear, actionable insights that support data-driven decision-making.
